

TECHNICAL DATA SHEET

MT5000

The MT5000 tracked hammer mill is a compact mill crushing machine, and the smallest tracked hammer mill on the market today. Equipped with a diesel engine, it can be loaded via ramps on any truck or trailer, and transported with ease, thanks to its compact size and limited weight. The MT5000, shatters and pulverizes glass, light concrete, cement tiles, ceramics, and more. It is the best solution for glass recycling companies and porcelain manufacturers.
